COLD SPRING HARBOR, LONG ISLAND

THE BIOLOGICAL LABORATORY

July 15, 1942

Dr. T. M. Sonneborn
Department of Zoology
Indiana University
Bloomington, Indiana

Dear Doctor Sonneborn:

I am writing to ask your cooperation in getting your manuscript for the Symposium volume to me just as soon as possible. We have been going ahead quite rapidly with the volume, since the printer is less busy just now than at any other time of the year; and at present we are being held back by only a few manuscripts from making a final mailing to him. I am in hopes that these will all come in very soon.

Dr. Brehme, who is editing the volume and preparing the index, is leaving Cold Spring Harbor on August 15 to take up a new position. Therefore, it would be very desirable if she could have proof of the whole volume in time to take care of it before her departure; and this can be done if all material goes to the printer very soon.

We will appreciate it very much if you can manage to send the manuscript immediately.

Sincerely yours,

M. Demerec
